Team CONIX RDBM Architects,  
Christine Conix, Jorden Goossenaerts &  
Frederik Jacobs

**.working with. MULTI. Open debate, public interior and circularity. A graphical documentary**

The book publication brings the story, the genesis, of MULTI like a 'documentary'. MULTI projects are all about a smart approach, working with what there is and reusing it as much as possible. This publication follows the same approach. Based on working documents, photos of the site, reflections and contextualisation. It is both a book with photos and a documentary, a reflective report that gathers knowledge. The three major topics follow MULTI's basic principles and ambitions: public debate, public interior, circularity. Attention is also paid to the role of BIM or, rather, 'integrated practice'.
